

Quarterly Update: Supporting Adults with Developmental Disabilities and Brain Injury in their Homes and Communities

September 28, 2021

Since our last [update](#), the number of adults with intellectual or developmental disabilities (IDD) and brain injuries who are enrolled in HCBS waiver programs increased by 76:

- One individual was added to the Section 20 program (Other Related Conditions Services);
- 16 individuals were added to the Section 21 program (Comprehensive Services for Individuals with IDD); and
- 59 individuals were added to the Section 29 program (Support Services for Individuals with IDD).

During this period (April-June 2021) the wait lists for these services also increased, adding 72 individuals.

The total number of individuals without other coverage has decreased to 518 (approximately 9% of current participants).

Table 1. Developmental Disabilities and Brain Injury Program Participants and Wait Lists, as of 06/30/2021

Waiver Program	Participants	Waitlist	With Other Coverage	Without Other Coverage (Percent of Current Participants)
Brain Injury (Section 18)	212	134	93	41 (19%)
Other related Conditions (Section 20)	39	21	10	11 (28%)
Comprehensive Services for IDD/ASD (Section 21)	3,262	1,918	1,615	303 (9%)
Support Services for IDD/ASD (Section 29)	2,479	253	127	126 (5%)
Totals	5,992	2,204	1,686	518 (9%)
